

INORGANIC DAYS in SWEDEN 2017

12-14 June 2017 in Nynäshamn

Focus areas

- Coordination chemistry, bio-inorganic chemistry and medicinal applications
- Electrochemistry and battery applications
- Inorganic catalysis
- Computational modelling and bonding
- Materials synthesis and functionality
- Environment and sustainability
- New methods of characterizing materials and processes
- Inorganic chemistry in exotic environments (arts, archeology, etc)
- Chemical education and didactics
- Thin films

Invited speakers

Prof. Helen Aspinall, University of Liverpool,

Prof. Jean-Francois Boily, Umeå University

Dr. Michael Brorson, Haldor Topsoe, Denmark

Prof. Bo Brummersted Iversen, Aarhus University

Prof. Kristina Edström, Uppsala University

Prof. Christian Ekberg, Chalmers University

Prof. Ulf Jansson, Uppsala University

Dr. Konstantin Klementiev, MAX-IV, Lund

Prof. Nicholas A Kotov, University Michigan

Prof. Simon Lancaster, University East Anglia

Prof. Kerstin Lidén, Stockholm University

Prof. Karl-Petter Lillerud, University of Oslo

Prof. Anja-Verena Mudring, Stockholm University

Dr. Anthony Reilly, The Cambridge Crystallographic Data Centre

Prof. Clément Sanchez, Pierre and Marie Curie University

Prof. Reine Wallenberg, Lund University

Dr. Tom Willhammar, Stockholm University

Prof. Hong Cai Zhou, Texas AM University

Upcoming deadlines are: April 12 for Early bird registration, May 1 – Oral abstract submission, May 14 – Poster abstract submission.

For details, please, see: <http://www.oorgan.se/>
